

Let It Go

Noiseworks

Life begins alone again
Time will always heal ya'
Let it go
We rise and fall, we make amends
I tried to make it easier for you
Life's too short to carry all
The pain within our hearts
When you're troubled
Let it out

Wake up and begin again
Just surrender let me into love
Your love
And if you falter now and then
Who's gonna be the one to lead you home
Life's too short to compromise
When you're troubled
Let it out

Let it go, let it go
Let it go, let it go, yeah
Let it go, let it go
Let it go

Been talking in your sleep
You been acting like a freak
Say, 'what's the matter with you?'
Say, 'what's the matter with you?'
When I look at you I see
You're just as scared as me
Say, 'what's the matter with you?'
What's the matter with me? Go
What's the matter with me? Yeah
Let it go, yeah!

Let it let, it go
What's the matter with you?
Let it, let it go
What's the matter with you?
Let it, let it go
What's the matter with you?
Let it, let it go
Let it go
