

Live And Die

Noiseworks

The only one thing that is certain
In this everchanging world
As we live and breathe
So we live and die
As I stare across the water
Looking to the distant shore
And the river is deep
And the river is wide

Oh, say it will, say it will be right
Oh, say it will, say it will be right

I still hold on, my love won't die
I hold you to my heart, hold you for all time
Keep remembering I still hold you to my heart
As we live and die I'll hold you to my heart, yeah

I remember all we shared
All the feelings I still hold, oh, oh...
There's only one thing that is certain
In this everchanging world, oh, oh...

Oh, say it will, say it will be right
Oh, say it will, say it will be right

I still hold on, my love won't die
I hold you to my heart, hold you for all time
Keep remembering I still hold you to my heart
As we live and die I'll hold you to my heart

I'll hold ya, hold ya, hold ya
Hold ya, hold ya, hold ya
Oh-oh-oh, oh...
Hold ya, hold ya, hold ya, yeah
I still hold on, I still hold on
