

# Miles And Miles

Noiseworks

Some people sing treading high above the world  
But I say let us roll, 1, 2, 3, 4...

Da-da-da-da-da-da, hoo!  
Da-da-da-da-da, whoo-hoo!  
Da-da-da-da-da-da  
Da-da-da-da-da

Floating high above the world  
I see for miles and miles  
It's such a magic place  
I can see through sleeping eyes  
A message in the air  
I hope could change the world  
I look all around me  
I don't wanna change my view  
'Cause I've been dreaming of love  
Baby, I tell you

If you need, whoo, a little bit of loving, come on  
I'll show you what to do  
If you need a little bit of loving, come on  
I'll show you what to do, come on

Da-da-da-da-da-da, whoo-hoo!  
Da-da-da-da-da, whoo-hoo!  
Da-da-da-da-da-da  
Da-da-da-da-da

I can see for miles and miles  
I got it all worked out  
I wanna take you there  
We'll stand upon the mountain top  
Where we can scream and shout  
And no one else will care  
Well, I'm only dreaming, oh, but it feels so good  
I wanna dream a little harder  
Make it all come true

Whoo, a little bit of loving, come on  
I'll show you what to do  
(For miles and miles)  
If you need a little bit of loving, come on  
(For miles and miles)  
I'll show you what to do, come on

Da-da-da-da-da-da  
Da-da-da-da-da  
Da-da-da-da-da-da, whoo-hoo!  
(Sing it!)  
Da-da-da-da-da  
(Come on, boy, here we go!)

Here we go, chance, take a chance

I can see for mile and miles  
Ooh, yeah!

Can ya feel it!

We all need it, need it  
Yeah, we all need it  
Come on, world, you just gotta believe it  
Can't y'all feel it  
Can't y'all feel it

I can see for miles and miles, yeah  
Come on...
