

One In A Million

Noiseworks

Look at the view
From the corner of the room
There's nothing for you, baby
When your sky has fallen through
Everybody knows you
But you're a stranger in this town
They're not gonna hold you
When the sun is going down

You're one in a million
One in a million
You're one in a million
Oh yes, you are

Waiting for you
Is the road to anywhere
It's up to you, baby
Let ya' dreaming take you there
Everybody wants you
You're the angel in this town
But they don't really know you
'Coz your tears don't make a sound

Oh, won't you come on over
We don't wanna' waste
Another night, oh girl

You're one in a million
Shine like a star
One in a million, yes you are
You're one in a million
You shine like a star

You're one in a million
Shine like a star
One in a million, yes you are
You're one in a million

Oh, you're an angel, baby
You don't wanna' waste another night, oh girl

You're one in a million
Shine like a star
One in a million yes you are
You're one in a million
You shine like a star

Yeah, you're one in a million
Shine like a star
One in a million, yes, you are
You're one in a million
And you shine like a star
Oh, you're my angel, girl
You shine like a star
