

Stand Up

Noiseworks

Been waiting for the dream to arrive
25 years down in the mine
Don't be waiting for the rest of your life
When it's all you got to do to survive, yeah
That's right

You gotta' stand up
C'mon, rock and roll
If everybody stands up
Anything is possible
Anything is possible

Don't spend your lifetime bruising your brain
Or keep swinging on a ball and chain
Don't leave yourself all busted again
You're not the only one that needs to change

You gotta' stand up
C'mon, rock and roll
If everybody stands up
Anything is possible
Anything is possible
Anything is possible

Stand up, stand up
Stand up, stand up
Stand up, stand up
