Tell It Like It Is

Noiseworks

And she walks and she talks
And she cries and she sighs
We stand at the doorway
If we cross the line
We got to run, run, run, run, run!

I've seen it before, babe, it's in your eyes
Just tell it like it is for you and I
We can't keep on, babe, it's a thin disguise
We got to run, run, run, run, run!

I hear information, it's creeping through the walls
Kick out inhibitions, just tell it like it is
I can feel the distance, do we fight or do we fall?
Kick out inhibitions, just tell it like it is

And we walk and we talk
And we cry and we sigh
We shared it all, babe
And if our love's a crime
We got to run, run, run, run, run!

I hear information, it's creeping through the walls
Kick out inhibitions, just tell it like it is
I can feel the distance, do we fight or do we fall?
Kick out inhibitions, just tell it like it is
I hear information, it's creeping through the walls
Kick out inhibitions, I'm waiting for you

Baby, I'm waiting
Baby, I'm waiting, uh-huh
Just tell it like it is
