

# Cincinnati Heart

Nolan Taylor

Living goes too fast  
Holy shit it's been  
Six years of us

And I can't say when  
All the punches rolling off your back  
Fall onto mine

I know there's miles between us  
Is that how it's supposed to be?  
I know there's time between us

Cincinnati Heart  
Is crawling out the dark  
This Cincinnati Heart  
Is all yours still

This Cincinnati Heart  
Is crawling out the dark

Why we treadin' water?  
We both know this ain't that deep  
The current came  
And swept us off our feet

Your your mothers daughter  
And I'm my father's son  
There ain't no hidin'  
I need you like where I came from

I know there's miles between us  
Is that how it's supposed to be?

Cincinnati Heart  
Is crawling out the dark  
This Cincinnati Heart  
Is all yours still

This Cincinnati Heart  
Is crawling out the dark  
(Cincinnati Heart is all yours still)

If I don't make it back to you darlin'  
Then the life that we've built goes starvin'  
We'll find our way back where we started  
Try to crawl our way out through the darkness now  
Back to

Cincinnati Heart  
Is crawling out the dark  
This Cincinnati Heart  
Is all yours still
