

# Like Everybody Does

Nolan Taylor

I've been climbing up the waterfall to find  
Hoping that it's going to set me free  
But at the top I'm finding myself fighting  
Cause all these feelings they still live inside of me

And I get real high and I get real low  
I'm like a roller coaster ride or a traveling show  
Burdens on my shoulders wherever I go  
From keeping it the way it was  
And I wear heart on my sleeve but pretend I don't cry  
Singing all these songs until this well runs dry  
Fill it up with bad friends for a while  
Looking for someone who will make me smile  
Like everybody does  
Like everybody does

And I've got real good at getting into trouble  
Maybe someone else can set me straight  
Hell at this point if I run into the devil  
I'll ask him, can you please show me the way

Cause I get real high and I get real low  
I'm like a roller coaster ride or a traveling show  
Burdens on my shoulders wherever I go  
From keeping it the way it was  
And I wear heart on my sleeve but pretend I don't cry  
Singing all these songs until this well runs dry  
Fill it up with bad friends for a while  
Looking for someone who will make me smile  
Like everybody does  
Like everybody does  
Like everybody does

And I've been holding on to all my family values  
Keep your head down don't you ever let 'em in  
But it's tearing me apart if I just keep it the way it was  
Cause feeling all my feelings ain't a sin

We all get real high and we get real low  
We're like a roller coaster ride or a traveling show  
Burdens on my shoulders wherever we go  
From keeping it the way it was  
And wear heart on our sleeves but pretend we don't cry  
Singing all these songs until this well runs dry  
Fill it up with bad friends for a while  
Looking for someone who will make us smile  
Like everybody does  
Like everybody does  
Like everybody does
