

Run It Down

Nolwenn Leroy

Ever since the water flowed under the bridge
Life is running free as a bird on the wing
Spread out like an eagle that flies when I sing
Stay and stay

Run it down down, run it down down down
Run it down down, run it down down down

Run it down
to the beat of now and I feel for you
if you don't know how and I feel for you
better keep up you're on you're way

Run it down
you can scream out loud and I feel for you,
if you don't know how and I feel for you
feel for you
keep up you're on you're way.

Na ah ah, Na ah ah

Running with your eyes open wide in the dark
feelings of the beat running out
in your heart
Stepping out and living each day
from the start

Stay
and stay

Run it down down, run it down down down
Run it down down, run it down down down

Run it down down, run it down down down
Run it down down, run it down down down

Run it down, to the beat of now
and I feel for you,
if you don't know how
and I feel for you
better keep up you're on you're way

Run it down
you can scream out loud and I feel for you
if you don't know how and I feel for you
feel for you
keep up you're on you're way.

Na ah ah, Na ah ah

Run it down, to the beat of now
and I feel for you,
if you don't know how
and I feel for you
better keep up you're on you're way
Run it down, you can scream out loud
and I feel for you, if you don't know how

and I feel for you,
feel for you,
keep up you're on you're way.
