

# Can't Catch Me

NoMBe

See me down the street  
But you can't get close 'cause I'm much too fast  
And I'm much too loud  
And I'm so caught up  
Now, is it me or my luck?  
Can't get enough  
Feed on alchemy and I'm running petrol through my blood  
It's a magic touch  
Now watch me go  
And I feed off your love  
Can't get enough

See me running my last breath on "e"  
Can't seem to cool it, all this precious heat  
Ooh and I won't slow down  
Ooh, but I dare you to catch me (ah-ah)

Ooh can't catch me, baby  
Ooh can't catch me, baby

Breathe the gas she breathe  
Only gets so high that you knock them down  
We feel the love  
Now watch me go  
Is it me or my luck?  
Can't get enough

See me running my last breath on "e"  
Can't seem to cool it, all this precious heat  
Ooh and I won't slow down  
Ooh, but I dare you to catch me (ah-ah)

Ooh can't catch me, baby  
Ooh can't catch me, baby

She's an animal  
Can't catch me, baby  
She's an animal  
Can't catch me now  
She's an animal  
Can't catch me, baby  
She's an animal  
Can't catch me now

Ooh can't catch me, baby  
Ooh can't catch me, baby
