Drama

NoMBe

Curtains open, you got your program
You know how the story goes
I take 'em high, you take me home
Back to the fortress, with bats & warheads
If you got lost in what you saw
You should know that after all

Ain't nothin' but drama, I'm just playing a part
When I'm feeling the spotlight, I see nothing but stars
Ain't tryin' to cause problems, when I stumble, I fall
Guess that's just drama, and I give it my all
Ain't nothing but
Ain't nothing but drama

Fame and fortune is for the moment
Kick the rye back like Patrón
I'm Oscar Wilde with lights & chrome
So get your toast in, here's to an old friend
And in the night, like Jaques Cousteau
I'll leave islands to come home
Ain't nothin' but drama

Ain't nothin' but drama, I'm just playing a part
When I'm feeling the spotlight, I see nothing but stars
Ain't tryin' to cause problems, when I stumble, I fall
Guess that's just drama, and I give it my all
Ain't nothing but
Ain't nothing but drama

Play the game although it's grungy
And the rules feel like Jumanji
But once we embark then there ain't no stopping
That's the way daddy taught me
It don't take too much to love me
But a chainsaw, trust & coffee
As the spotlight burns, and mama, that hurts
I have faith there's more above me

Ain't nothin' but drama, I'm just playing a part
When I'm feeling the spotlight, I see nothing but stars
Ain't tryin' to cause problems, when I stumble, I fall
Guess that's just drama, and I give it my all
