Man Up

NoMBe

I wonder who's to blame
For the world of the present
Ten bucks a year to maim
Far from love and affection

This world was never meant, for us
Nah-nah-nah, it's for the girls and children
First amendment
Boys, man up, nah-nah-nah
It's for the girls and children
First amendment, let's

Don't you abandon ship
Be the savior of many
You'll drown right where you live
Gets the fear in your belly

This world was never meant, for us
Nah-nah-nah, it's for the girls and children
First amendment
Boys, man up, nah-nah-nah
It's for the girls and children
First amendment, let's

And I know you've got the message
Of love, to you
[?] I've never let it
What the fuck is the rule? (I wonder who's to blame)

Yeah

This world was never meant, for us
Nah-nah-nah, it's for the girls and children
First amendment
Boys, man up, nah-nah-nah
It's for the girls and children
First amendment, let's
