

Nu Lova

NoMBe

Two lips and daffodils
By my window sill
And I love the smell I want
Nu love, new hugs, no shrubs
I pull out the weeds
And the breeze take'em off
To somewhere far
Where they won't cause harm
And my heart stays warm
Like my lawn in the sun
This rebound shit is legit and a trip
Baby time will tell if it gels or we quit

Seasons they change best believe
Like lovers
Like days of the week (baby)

Ooooooh
Friday night you said goodbye
But then I went
Straight into Saturday and fell in love again
So let me introduce you to my

New, new, my new, new, new lover
Let me introduce you to my
New new, brand new, boo and lover

Now, we've been on and off and I'm bout to move on
This too shall pass, so I pass the baton
There's plenty fish and my net's pretty long
So I drown my drip in a 5th of cologne
Slide to the bar where they these songs
And talk my shit till the birds come home
Baby, all night long in the cut having fun
Till run out of luck or find junk in the trunk

Seasons they change best believe
Like lovers
Like days of the week (baby)

Ooooooh
Friday night you said goodbye
But then I went
Straight into Saturday and fell in love again
So let me introduce you to my

New, new, my new, new, new lover
Let me introduce you to my
New new, brand new, boo and lover
