

# Prototype

NoMBe

Spare parts for everyone  
All must go, we're making room  
This heavy heart is first to go (first to go)  
Hit restart from head to toe (head to toe)

And now is the perfect time (uh-huh)  
To change a few circuits, I  
Can feel my gears turning (click-click)  
It's never too early

I can be a better version if you like  
'Cause as far as I'm concerned  
You've only met the prototype  
I can be a better version, babe, for you and I  
If you give it time, give it time

I can be a better version if you like  
'Cause as far as I'm concerned  
You've only met the prototype  
I can be a better version, babe, for you and I  
If you give it time, give it time

From this day forward, from this day on  
Count on me like a metronome  
I'ma be as good as new  
No more days in beta mode

And now is the perfect time (uh-huh)  
To change a few circuits, I  
Can feel my gears turning (click-click)  
It's never too early

I can be a better version if you like  
'Cause as far as I'm concerned  
You've only met the prototype  
I can be a better version, babe, for you and I  
If you give it time, give it time

I can be a better version if you like  
'Cause as far as I'm concerned  
You've only met the prototype  
I can be a better version, babe, for you and I  
If you give it time, give it time

You can't receive the message  
It won't send, been disconnected  
Emotion misdirected
