

# Soft Top

NoMBe

Girl you know I'm yours till the suns up  
Eating pills right off your belly like its gumdrops  
Let's get lost tonight leave everything behind  
And never stop until I find your soft spot  
Ridin' round town in my soft top  
Middle finger to the sky till the cops come  
Let's get lost tonight leave everything behind  
Playing with da powder till our jaws lock

Do you wanna be my baby  
She said boy why you so crazy  
Well I'm from the east coast  
Where we party like the 80s  
Getting rowdy on the daily  
Everybody bumping Jay-Z  
Dreams of riding a Mercedes  
Leave the top down when it's 80  
Cuz a bad boy need a bad girl  
Were some good souls in a bad a world  
All this drink in your cup  
Know it's hard to keep up  
You don't even need to lie  
I've been there many times

Girl you know I'm yours till the suns up  
Eating pills right off your belly like its gumdrops  
Let's get lost tonight leave everything behind  
And never stop until I find your soft spot  
Ridin' round town in my soft top  
Middle finger to the sky till the cops come  
Let's get lost tonight leave everything behind  
Playing with da powder till our jaws lock

Push the pedal to the ground, push it to the floor  
If the break lights broke I would never know  
Cuz I'm living young and reckless  
Still puffing herb for breakfast  
And flying down the 101 pretending they would let us  
Shit is great  
Steady trailblazing  
Brace 'em like I'm Jason  
State of miss abrasion  
And I know its hard to keep up  
Your boy NoMBe and Thut  
You don't even have to lie  
You can smell the rubber fry like

Girl you know I'm yours till the suns up  
Eating pills right off your belly like its gumdrops  
Let's get lost tonight leave everything behind  
And never stop until I find your soft spot  
Ridin' round town in my soft top  
Middle finger to the sky till the cops come  
Let's get lost tonight leave everything behind  
Playing with da powder till our jaws lock
