

Solid Ground

NoMBe

Ooh when you swept me off my feet
And pulled the rug from underneath
I think you cured my height of fears
And brought it to its knees
No light, no sound no air to breathe

But who knew you could move
Such a heavy heavy heart like mine
Pulse through the roof got me
Shooting right across the sky

When you're taking me higher, steady takin me higher
And the world is shrinking, cause you're around
Takin me higher, steady takin me higher
And you got me thinkin, fuck solid ground

World's so pretty from up here
But without you so hard to bare
So close to god I might as well
Ring those pearly bells
And hand these prayers in myself

But who knew you could move
Such a heavy heavy heart like mine
Pulse through the roof got me
Shooting right across the sky

When you're taking me higher, steady takin me higher
The world is shrinking, cause you're around
Takin me higher, steady takin me higher
And you got me thinkin, fuck solid ground
