

## Something To Hold Onto

NoMBe

Is there anybody out there?  
I'm flyin', headin' nowhere  
Two hundred miles above you  
I really needed this new world view

And I'm a long, long way from Redondo  
But I can turn around if you want to  
And I can rock your world, baby, pronto  
If you say you'll be there when I come through

And now I'm free fallin' for you  
So give me something to hold on to  
Yeah, I'm free fallin' for you  
So give me something to hold on to

I wonder if we make it  
Or burn up like paper  
Hailed and celebrated  
I'm simply happy that you waited

It's still a long, long way from Redondo  
Kill time, stargaze in the front row  
Elton John on my playlist with Flako  
Keeps me calm everyday when it rumbles

And now I'm free fallin' for you  
So give me something to hold on to  
Yeah, I'm free fallin' for you  
So give me something to hold on to
