

# Space For Two

NoMBe

Running from a past life  
I was thinking last night  
We should get away  
Just me and you

Finger on the map like  
We should live our best life  
Skinny dipping till  
Our lips turn blue

Shawty  
You know where to find me  
Just give me a sign I'll  
Be flyin in a heartbeat

Sexy sugar mami  
Riders never die see  
I'll be by your side when you call  
Any time, any place for you

I'll go anywhere  
As long as there's space for two  
So would you run away right now  
I dare you to

Ridin in the front seat  
But more than a side piece  
Only sky behind me  
Oh so blue

Runnin through my slowjamz  
Like it's 1990  
And forever friday  
Where we go

Shawty  
You know where to find me  
Just give me a sign I'll  
Be flyin in a heartbeat

Sexy sugar mami  
Riders never die see  
I'll be by your side when you call  
Any time, any place for you

I'll go anywhere  
As long as there's space for two  
So would you run away right now?  
I dare you to  
I dare you to
