

Sugar Rush (Late Night Snack)

NoMBe

There goes my mind
Her lips so sweet like candy cane
(When it's late at night and there's appetite)
Got me on dial
Trust me, you'll be so glad you came
(I wanna sip on that, that syrup till I crash)

Tongue-tie me, let's unwind
Cause it's unlikely
I'll find someone this fine
Baby like wine, baby
I'm drunk on this rum cake
And you might say
That this eye candy and spice
Gave me the sweetest sugar rush, baby
I fight cravings at night

Muaaah
Um beijinho pa adoçar sua vida
Muaaah
Um beijinho pa adoçar seu dia

Yum yum, hum hum
Apricots, chocolate love
I eat it like Wonka bars
You the golden ticket
I don't care who hit it
Say it loud and British
That I found you, innit?

Right round, right round
All the way down downtown, no breaks
Cause it's always lunchtime right now
Put it on my tab, don't you dare close out
Hit it from the back like a late-night owl

If you say never eat past five
Can I lick it just a little like you like?
Make kitty quiver in the middle of July
Cause my appetite for no type

Tongue-tie me, let's unwind
Cause it's unlikely
I'll find someone this fine
Baby like wine, baby
I'm drunk on this rum cake
And you might say
That this eye candy and spice
Gave me the sweetest sugar rush, baby
I fight cravings at night

Muaaah
Um beijinho pa adoçar sua vida
Muaaah
Um beijinho pa adoçar seu dia

Muaaah

A noite é sobremesa, chocolah...teh
A noite é sobremesa, malandra...eh

Don't be afraid
Pour all your sugar on me, babe
I'm here to stay
I'll be your bittersweet mistake

I love the pain
Of cavities and fever dreams
Into my veins
Let syrup flow like novocaine

Don't be afraid
Pour all your sugar on me, babe
Show me the way
From good to bad, for goodness sake

It's all the same
Straight cavities and fever dreams
Eeeeyyeey
