

Summer's Gone 2.0

NoMBe

Summer's gone, but you can be my winter lovin'
Summer's gone, but you can be mine
The world stops spinning when you open your eyes my darlin'
What a beautiful soul, you deserve your own island

Sun gon' shine, moon is in place
Come out at night to play
Stars are blind and my vision
I close my eyes to pray
Love of mine, I see your face
I know you know my deal
I'll sound it out, don't hesitate
Don't make me wait
I got my suit and tie, ready to die
No Biggie Smalls but it's you and I
Me and my bitch
I got my wisdom

Summer's gone, but you can be my winter lovin'
Summer's gone, but you can be mine
The world stops spinning when you open your eyes my darlin'
What a beautiful soul, you deserve your own island

Summer's gone and now I'm falling
Free falling, free falling in love with you
No parachute my arms open
Not here to lose
You [?] on the clothes
Oh baby yes I'll show you
Now is it true

Baby just show me

Make that body move like you Cardi

Summer's gone, but you can be my winter lovin'
Summer's gone, but you can be mine
The world stops spinning when you open your eyes my darlin'
What a beautiful soul, you deserve your own island
Summer's gone, but you can be my winter lovin'
Summer's gone, but you can be mine
The world stops spinning when you open your eyes my darlin'
