

# Summer's Gone

NoMBe

Summer's gone, but you can be my winter lovin  
Summer's gone, but you can be mine  
The world stops spinning when you open your eyes my darlin  
What a beautiful soul, you deserve your own island

So trust me  
I'll give you that  
Heartbeat  
Moving fast  
The only way I know is the only  
Way you're heading  
Come near me  
Don't fear me  
That's why I'm running, running just looking for ya  
All I wanted  
Was a morning  
With you honey  
You see I'm drowning  
Tryna make your love surround me  
Hoping you never look down on me  
Just waiting for the summer to end

Summer's gone, but you can be my winter lovin  
Summer's gone, but you can be mine  
The world stops spinning when you open your eyes my darlin  
What a beautiful soul, you deserve your own island

Won't you love me? I'll be  
The only one, gods speed  
Holy grail and I know if our time was up tomorrow  
I'd pull you near me, now that's real heat  
And spin you like a bottle baby spin you like serato  
Let me walk you through the golden age, diamond days, purple haze  
And show you as the summer fades the difference between night and day  
And don't you worry bout time and a place  
It's a matter of finding the present and livin and guessin the cresce  
nt has risen for Oliver Twist in a matter of days

Summer's gone, but you can be my winter lovin  
Summer's gone, but you can be the angel that fell from the sky when I  
saw you at first  
And it wasn't a dream, and I knew it was you that I saw when I saw wh  
at I saw and I conquer my fears  
And I'm running for joy  
And you begging for mercy and I'm begging for more

Summer's gone, but you can be my winter lovin  
Summer's gone, but you can be mine  
The world stops spinning when you open your eyes my darlin  
What a beautiful soul, you deserve your own island
