

You can say what you want
When push comes to shove
All I know you can't run from me
The battle just begun
Raising up our fist yelling, ooh aah aah aah
You can say what you want
When push comes to shove
All I know you can't run from me
The battle just begun
Raising up our fist yelling, ooh aah aah aah

Are you awake yet
I've been plotting domination
Climbing top this apex
World is falling down
We tryna figure if it's safe yet
Out the window, bulletproof
We marching on the pavement
No child left behind
History is what we're making
Children of the corn tried to symbolize demise
Pick up all the broken wings and learn again to fly
Cuz it's not over unless we say so
We're fighting with the same clothes
Maneuver when the say go

You can say what you want
When push comes to shove
All I know you can't run from me
The battle just begun
Raising up our fist yelling, ooh aah aah aah
You can say what you want
When push comes to shove
All I know you can't run from me
The battle just begun
Raising up our fist yelling, ooh aah aah aah

Are you awake yet
Moms are doing drugs and feeding babies on the same steps
Planes are crashing, people burning
It's looking like the omen
Glass is half full so we go a lot to cheer for
Yet we reminisce about the days we let the rain pour
Running round in circles so naive to all bullshit
Momma said don't worry one day we'll all be included
So I hang on to dreams of those before me
Dreams turned to nightmares, I just hope it don't haunt me

You can say what you want
When push comes to shove
All I know you can't run from me
The battle just begun
Raising up our fist yelling, ooh aah aah aah
You can say what you want
When push comes to shove
All I know you can't run from me
The battle just begun

Raising up our fist yelling, ooh aah aah aah
