

# Think About You

NoMBe

Sweet summer days never lasted this long  
And I don't see an ending anytime soon  
So cancel your plans my love  
Cause I'll be forever yours  
And I thought I should let you know  
That no-one compares to you  
There's no room for self control  
Oooohhhhhh

When I think about you...  
... think about you  
And I thought I should let you know  
That no-one compares to you  
There's no room for self control  
Oooohhhhhh

Bring on the shade baby you are my sun  
I could spend the rest of my days in your precious maroon  
So cancel your plans because  
I'll be forever yours  
And as lovers come and go  
And the champagne overflows  
There's no room for self control...  
Ooooohhhhhh

When I think about you...  
... think about you

And as lovers come and go  
And the champagne overflows  
There's no room for self control...  
Ooooohhhhhh

And I know I don't deserve it, but I swear  
Ain't no-  
one can match the way you make me feel (way you make me feel)  
Guess the world just ain't the same without you here  
Only you mama make me heal  
When I think about you...  
Yea, think about  
Think about you  
When I think about you  
Think about you  
Something to think about  
Something to think about
