

White Lies

NoMBe

Please open fire
Straight into my heart
Take saws and Pliers
Tear me apart

Cause I'll trade you sky for skin
Than live in a lie within

I'm picking up real sketch vibes
My woman's been telling me lies
About other men
About where she's been hangin, hangin
Suspicious thoughts in my mind
Been brewing up overtime
She's just a friend
When to me he's a stranger, stranger

No hope no mercy
When we creep I crash
Watch me bleed out slowly
Till the seasons pass

Cause I'll trade you sky for skin
Than live in a lie within

I'm picking up real sketch vibes
My woman's been telling me lies
About other men
About where she's been hangin, hangin
Suspicious thoughts in my mind
Been brewing up overtime
She's just a friend
When to me he's a stranger, stranger
