

## Young Hearts

NoMBe

Say all you want  
Girl, you are an angel  
Much better then you know, girl  
You see, you're all that I want  
You had me at hello  
Girl, I almost fainted  
Too much for my young heart and soul  
To bear to feel

I want to get away  
Please say that you want to  
The places we could go  
Are all posh and green  
I'll pay for the gas  
We'll head for the hills  
And it could be amazing  
Ooh, I can taste it  
The only thing I'm gauging  
Is how you feel

Ooh, is there something that you need to have?  
If it's indispensable, something I can get arrested for  
You got it, shorty say the word  
Hell and bloody murder, ain't no mountain high  
And hurdles are unheard of, you're worth it  
So teach me how to be all that you want
