

# Break me

Nomy

Break me down  
I belong in the dark  
Crying louder and louder  
Try to stand but I slowly fall apart

Drag me through the dirt  
I'll become your only one  
I belong where only you could hurt me  
Drag me to your heart  
Make me squeal in your pain  
You break what is left inside of me

Yeah the devil the saint in human shape

Break me down  
I belong in the dark  
Crying louder and louder  
Try to stand but I slowly fall apart  
Break me down  
I belong in your arms  
With my head on your shoulder  
Try to stand but I stumble in the dark

Drag me through your strife  
Pull me down with your words  
You break what is broken in my life  
Drag me through your pain  
Like a dog on a leash  
You break what is left inside of me

Yeah the pain I'm broken and insane

Break me down  
I belong in the dark  
Crying louder and louder  
Try to stand but I slowly fall apart  
Break me down  
I belong in your arms  
With my head on your shoulder  
Try to stand but I stumble in the dark

Drag me through the dirt  
And I'll love you even more  
Drag me through your filth  
And chain me to the floor

I will be your slave  
Your broken valentine  
Your pillow when you cry  
A garbage when your fine

Drag me through your pain  
Like a dog on a leash

Break me down  
I belong in the dark  
Crying louder and louder

Try to stand but I slowly fall apart

Break me down

I belong in the dark

Crying louder and louder

Try to stand but I slowly fall apart

Break me down

I belong in your arms

With my head on your shoulder

Try to stand but I stumble in the dark
