

## Brothers by their love

Nomy

What would happen if you go away?  
I don't know, and I'll hope you stay  
When the rest of the world is getting cold  
Then I find my warmth in your soul  
When I'm not around, turn against the sun  
There I'll leave the trace, right into your face  
Ask me where I've been I'll tell you what I've seen  
Cause I will be around whenever you are down  
Has someone stolen your faith?  
I hope not, I hope not  
Has someone stolen your faith?  
I hope not, I hope not  
To my brother who dazzle the sun  
Side by side we are one  
Like a burning star that falls from above  
To my brother that I truly love  
Can you see the boys, laughing, making noise  
They were you and me creating history  
Remember our street with nothing on our feats  
Together we faced fear as long as you stood near  
Has someone stolen your faith?  
I hope not, I hope not  
Has someone stolen your faith?  
I hope not, I hope not  
Replace you can not be done  
Life would fall without the sun  
I found a place where we belong  
I found a place, it's in this song  
Faces fade, shivering fear  
Brothers not by blood  
Brothers by their love  
Has someone stolen your faith?  
I hope not, I hope not  
Has someone stolen your smile?  
I hope not, I hope not
