

# Dark Skies

Nomy

It's 2 and 45 and I think I'm gonna die  
And I'm about break down  
You're in my heart  
You're stuck in my heart

It's 5 and 42 and all I hear is you  
And I'm about to go down  
You're in my head  
You're stuck in my head

But now, you're starting to grow up baby  
Fighting your way through the pain  
And now I'm starting to fade but I'll be right

Dark skies will  
Pass you by  
Remember  
You're my saviour  
You're on your way  
And that's ok

It's 2 and 45 and all I do is try  
And you're about to slow down  
You're in my heart  
You're stuck in my heart

It's 1 and 2 and burn and that's the way you gotta learn  
Everyday is just another day you try to make the turn  
'Cause you, you're stuck on repeat

But now, you're starting to grow up baby  
Fighting your way through the pain  
But now I'm starting to fade but I'll be here

Dark skies will  
Pass you by  
Remember  
You're my saviour  
You're on your way  
And that's ok

When you ever stand alone  
You better take my hand  
You better take my hand  
If you ever need me there  
I'll give you all I can  
I'll give you all I can

Dark skies will  
Pass you by  
Remember  
You're my saviour  
You're on your way  
And that's ok

Dark skies will  
Pass you by

Remember  
You're my saviour  
You're on your way  
And that's ok

Dark skies will  
Pass you by  
Remember  
You're my saviour  
You're on your way  
And that's ok
