

Fading out

Nomy

You're fading
I'm fading

Living like the old ways living like you and me
We're hanging on like we've done
Day by day but really
We keep getting lost
We keep finding us crawling
In the dark
We keep hurting us
We've been looking for answers
When we talk

I'm fading
I don't wanna be there anymore
We're failing
Stuck in a life we're hating
You're fading
We don't want stand here anymore
We're hating
Stuck in a dream we're faking
You're fading

Running on a road not big enough for both of us
You're hanging on as I run
Begging me to heal you
I'll keep bury you
You keep dragging me under
In the dark
I've been hurting you
You're still stuck in a wonder
Of it all

I'm fading
I don't wanna be there anymore
We're failing
Stuck in a life we're hating
You're fading
We don't want stand here anymore
We're hating
Stuck in a dream we're faking
You're fading out

I'll keep bury you
You keep dragging me under
In the dark
I've been hurting you
You're still stuck in a wonder
Of it all

I'm fading
I don't wanna be there anymore
We're failing
Stuck in a life we're hating
You're fading
We don't want stand here anymore
We're hating

Stuck in a dream we're faking
You're fading Out
We're fading out
