

# Fall Back Down

Nomy

Don't worry about me I'm gonna make it alright  
Got my enemies cross-haired and in my sight  
I take a bitter situation gonna make it right  
In the shadows of darkness I stand in the light

Ya see it's our style to keep it true  
I had a bad year, a lot I've gone through  
I've been knocked out, beat down, black and blue  
She's not the one coming back for you  
She's not the one coming back for you

If I fall back down  
You're gonna help me back up again  
If I fall back down  
You're gonna be my friend  
If I fall back down  
You're gonna help me back up again  
If I fall back down  
You're gonna be my friend

It takes disaster to learn a lesson  
We're gonna make it through the darkest nights  
Some people betray one and cause treason  
We're gonna make everything alright... hey!

Well the worst of times, now, they don't phase me  
Even if I look and act really crazy  
I went way down, she betrayed me  
Now my vision is no longer hazy

I'm very lucky to have my crew  
They stood by me when she flew  
I've been knocked out, beat down, black and blue  
She's not the one coming back for you  
She's not the one coming back for you

If I fall back down  
You're gonna help me back up again  
If I fall back down  
You're gonna be my friend  
If I fall back down  
You're gonna help me back up again  
If I fall back down  
You're gonna be my friend

If I fall back down  
You're gonna help me back up again  
If I fall back down  
You're gonna be my friend  
If I fall back down  
You're gonna help me back up again  
If I fall back down  
You're gonna be my friend

(If I fall back down)  
If I fall back down

You're gonna help me back up again  
(If I fall back down)  
If I fall back down  
You're gonna be my friend  
(If I fall back down)  
If I fall back down  
You're gonna help me back up again  
(If I fall back down)  
If I fall back down  
You're gonna be my friend
