

## Get a name

Nomy

Have you ever seen the sun go down  
From the city where I walk around  
Be apart of the social play  
And you'll be okay (we're leaving)

Have you ever been away from home  
Cutting corners when you're walking alone  
Disappear into a social game  
And you'll get a name

There is no way turning back  
Might as well stay on this track  
But it's not too late to save yourself  
There is no way fighting back  
In the end we'll fade to black  
But it's not too late to save yourself (we're leaving)

Have you ever seen the rain crash down  
In a city where you gonna drown  
Disappear into an endless game  
With a made up name

Have you ever seen the hell rise up  
Runs you over if you never stop  
Be apart of the social game...  
With a made up name  
(Made up name, made up name, made up name... with a made up name)

Have you ever been away from home  
Cutting corners when you're walk alone  
Disappear into a social game...  
And you'll get a name

Have you ever seen the hell rise up  
Runs you over if you never stop  
Be apart of the social game...  
With a made up name

Have you ever been away from home  
You cut the corners when you're walk alone  
Disappear into a social game...  
And you'll get a name  
(Get a name, get a name, get a name  
Get a name, get a name)

Have you ever seen the sun go down  
From the city where I walk around  
Be apart of the social play  
And you'll be okay

Have you ever been away from home, away from home  
Have you ever been away from home, away from home  
There is no way turning back  
There is no way turning back
