

# My Nightmare

Nomy

Your face, your face  
Is haunting me  
This place, this place  
Is killing me

You're still around me  
You're the dream when I sleep  
Like a song on repeat  
Your voice surrounds me  
All the things that you said  
Like a ghost in my head

The lies, the lies  
Are stuck inside  
My heart, my heart  
Is torn apart

Your face, your face  
Is haunting me  
This place, this place  
Is killing me

The lies, the lies  
Are stuck inside  
My heart, my heart  
Is torn apart

The night surrounds me  
You're the dark when I sleep  
You're the voice through the concrete  
You're like a nightmare  
You're the freak in my dream  
You're that silence when I scream

Your lies, your lies  
Are stuck inside  
My heart, my heart  
Is torn apart

Your face, your face  
Is haunting me  
This place, this place  
Is killing me

The lies, the lies  
Are stuck inside  
My heart, my heart  
Is torn apart

Your face, your face  
Is haunting me  
This place, this place  
Is killing me

And everytime you call my name  
Pulls me back to your fucking game  
It never ends

(It never ends)  
It never ends

You're like a nightmare  
You're the freak in my dream  
(You're the freak in my dream)

Your face, your face  
Is haunting me  
This place, this place  
Is killing me

You're like a nightmare  
You're the freak in my dream  
(You're the freak in my dream)

Your lies, your lies  
Are stuck inside  
My heart, my heart  
Is torn apart
