

# Night train

Nomy

Sitting on the night train  
Just another night for the wicked  
Sitting with the insane  
Just another night for the twisted

But I know I'm alive  
But I think I'm ready to go  
So I fall into the night

You're never gonna get my soul  
'Cause I'm staying on my own  
Never gonna be the same again  
Never getting off the night train

Sitting with a low life  
Just another night for the renegades  
Running on the dark side  
Just another night, want my own place

But I know I'm alive  
But I think I'm ready to go  
So I fall into the night

You're never gonna get my soul  
'Cause I'm staying on my own  
Never gonna be the same again  
Never getting off the night train

You're never gonna get my soul  
'Cause I'm staying on my own  
Never gonna be the same again  
Never getting off the night train

Waiting for a new chance  
While I disappear into the underground  
Giving up the opens  
While I disappear from a ghost town

And now I know we're bound to fall  
Into the night, I'm gonna go  
Names full of soul

You're never gonna get my soul  
'Cause I'm staying on my own  
Never gonna be the same again  
Never getting off the night train

But I know I'm alive  
But I think I'm ready to go  
So I fall into the night

You're never gonna get my soul  
'Cause I'm staying on my own  
Never gonna be the same again  
Never getting off the night train

Hear me now, for the love of God

I'm in the open  
Send a bullet through the night train  
While I'm running with the insane

You're never gonna get my soul  
'Cause I'm staying on my own  
Never gonna be the same again  
Never getting off the night train
