

## No control

Nomy

You, stop putting your words in me  
'Cause I will follow you blindly  
You, stop tell me what should be  
'Cause I, I'll do what you tell me

Sometimes you're taking over  
And sometimes I can not see  
Your words are slipping through  
Like a devil you are killing me

You'll bury me  
My self-control  
But I will rise  
I have been crawling

In a second you'll take over  
In a second I'll be gone  
In a second I will lose her  
I am trying to hold on but I got no control  
In a second I'll be falling  
You're in control

You, stop taking the best of me  
'Cause I am losing grip of reality  
I, I never believed in you  
But you always said what you wanted to

You'll bury me  
My self-control  
But I will rise  
I have been crawling  
You'll bury me  
You're in my soul

In a second you'll take over  
In a second I'll be gone  
In a second I will lose her  
I am trying to hold on but I got no control  
In a second I'll be falling  
You're in control  
In a second you'll take over  
In a second I will lose her  
I'm trying to hold on but I got no control  
In a second I'll be falling  
I can't hold on

You'll bury me  
My self-control  
But I will rise  
I have been crawling

You, stop putting your words in me  
'Cause I will follow you blindly  
You, stop tell me what should be  
'Cause I, I'll do what you tell me

In a second you'll take over

In a second I'll be gone  
In a second I will lose her  
I'm trying to hold on but I got no control  
In a second I'll be falling  
You're in control  
In a second you'll take over  
In a second I will lose her  
I'm trying to hold on but I got no control  
In a second I'll be falling  
With no control  
No control  
No control
