

ParaNoia

Nomy

There's a small man speaking in the house of lies
For the people in control
He promised he would change it all
But trusted minds he stole
There's an old paranoia hiding right in your head
If we don't love 'em we are gonna turn red
Let it roll, let it roll, let it roll

But when the young start walking and they kneel and they cry
Over fires we can't reach
'Cause when the wind say so all the trenders gonna go
With the rights to claim their speech
There's an old paranoia hiding right in your head
If you don't follow then you're gonna look dead
Let it roll, let it roll, let it roll

And when the years goes by all the hope goes down
We've seen it all before
No matter what they said, no matter what they did
They're asking us for more
We got an old paranoia whirling up in like a curse
If we don't follow then it's gonna get worse
Let it roll, let it roll, let it roll

The fighters in town, gonna burn it all down
The fighters in town, gonna burn it all down
In a house of noise they scream it out loud
In a house of noise yeah they'll burn it to the ground
There's an old paranoia hiding right in their head
If you're a member you don't need to be scared
Let it roll, let it roll, let it roll

Let them burn and let them fall
'Cause we cried and we screamed, let us learn how to fight again
Let us turn against them all
Gotta learn, gotta stand, gotta fight it to live again

The fighters in town, gonna burn it all down
The fighters in town, gonna burn it all down
In a house of noise they scream it out loud
In a house of noise yeah they'll burn it to the ground
There's an old paranoia hiding right in their head
If you're a member you don't need to be scared
Let it roll, let it roll, let it roll

Let them burn and let them fall
'Cause we cried and we screamed, let us learn how to fight again
Let us turn against them all
Gotta learn, gotta stand, gotta fight it to live again

There's an old paranoia hiding right in your head
If you don't follow then you're gonna look dead
Let it roll, let it roll, let it roll

Paranoia, paranoia, paranoia
The boys in town and they'll burn it to the ground
Paranoia, paranoia

Paranoia in your head
