Put Him Out

Nomy

Open your eyes
Blood on your shirt
Don't make this nice
Just make it hurt

You're in a god damn situation
Stand right up and forget the pain
It's your obligation
Never let him go and repeat it again
Open your eyes, stand right up
and forget the pain
On your feet you're going out
To put him out

Put him out baby
Put him out crazy

All that you will do
Is to break the thing in two

Open your eyes
Spit out his curse
Truth versus lies
truth will disperse
