

Red flags

Nomy

Say, say what you feel
Can you see red flags dancing in the streets again?
Again, again, again
Say, say, do you heal?
Can you see bricks and stones are pouring down like rain?
Again, again, again

Everybody's gonna hold on tight
Everybody's gonna freelance
Everybody's getting stoned downtown tonight

We carry on like we don't care
What they do wrong, we can't repair
We're holding on to all we know
Just close your eyes and let it go

Yeah say, why do you fight?
I can see broken glass and bottles in the air
Again, again, again
Again, again, again
Say, say what is right
Oh I can see broken kids, pretending like they care
Again, again, again
Again, again, again

Everybody's gonna hold on tight
Everybody's gonna freelance
Everybody's getting stoned downtown tonight

We carry on like we don't care
What they do wrong, we can't repair
We're holding on to all we know
Just close your eyes and let it go

So get your friends and pick a stone
Just get a flag and claim your rights, you're not alone
So bring your guns and make a stand
We are the young, we are the free without a plan

We carry on like we don't care
What they do wrong, we can't repair
We're holding on to all we know
Just close your eyes and let it go
