

They said I was special

Nomy

I've seen people go under
I've seen people move on
but the voices getting louder
until there is none

They said I was special
They said I could fight it
I said it was painful
I told them I'll lose it

I wanna be special
I wanna be you
But i dont belong here
I see it in you

They said I was special
They said I could fight it
I said it was painful
I told them I'll lose it

They said I was special

I've seen people in battle
I've seen people give up
But they are just like cattle
They don't know when to stop

I thought they were special
I thought they all knew
But they are just assholes
They are just like you

I said it was painful
I told them i'll lose it

If u coming back home tonight
I'll be all long gone
I'll be all long gone
If u coming back home tonight
I'll be all long gone
I'll be all long gone
I thought it was easy
I'll be all long gone
I'll be all long gone
I thought it was easy
I'll be all long gone
I'll be all long gone
