

Forever

Noname

Miss Nina Simone, Jimmy Jones
Missy Elliot musically were my relatives
Never forget my Andre
Papi mi casa es su casa
Baby I made an entrée
Maybe I make your moms plate
Maybe we not gon' sleep tonight
In the night you and I laugh about how you Gemini
Already fry the chicken
But leftovers was my inner thigh
Nah I'm lying, I'm just playing
You can read this book with me
I'm trying to re-imagine abracadabra for poverty
Like poof I made it disappear
Proof I'm made of happiness
Everything is everything
But I still haven't paid my rent
Ugly is ugly
So molly makes them joyful now
When I get down, I'm already up
Molly the water, I keep the drink in the cup
My druggy is druggy we just some kids out of luck
Ooooh they ain't tryna' see me shine my shine
A bullet on my time, my time
Fuck it, I'll live forever now

They ain't tryna' to see me shine, shine
Bullet on my time, time
But fuck it, I'll live forever
They ain't trying to see us shine, shine
Bullet on our time, time
But Fuck it, we'll live forever
Forever in a day
Follow in the rain
You know that we live forever
How long will it take?
To marry the sunset
If it ain't us yet forever

I sold my name for seven bags of skittles
On Sunny Set Boulevard
Please tell me God is rainbow pretty
Mystery and fully charged
Nobody understands my songs
Aloe vera sentences to heals the scars
Of rental cars to Malibu to Shangri-La
Ooh, my cigarette burning, my momma be calling
She worry about me, her girl alcoholic
And I can take a trip to L.A
And I can lose myself inside myself
I hope the Lord forgives me now
Why I still be thrifting accustomed to
Wearing hand-me-downs
Why my cinderella a cinder block
For my family now
I can't build no mansion on top of these shaggy bones
I left my home I'm on, the road forgive me

There she go again, her dark consumerism
Assimilated in him, cash the new gospel
Occupational sin, just walked out of the church house
With happy all in my pocket, a little something to spent

They ain't tryna' see me shine, shine
Bullet on my time, time
But fuck it, I'll live forever
They ain't tryna' see us shine, shine
Bullet on our time, time
But fuck it, we'll live forever
Forever in a day
Follow in the rain
You know that we live forever
How long will it take?
To marry the sunset
If it ain't us yet forever

We gon live forever like Aaliyah
Look how they did Rekia
Honestly I'm just happy I can be here
Hoping I don't offend all my peers
When I say that ass is a mouthful like kujichagulia
Following bright ideas, cause I'm victim to colorism
They flood the prison, no difference hanging from trees
When they gon leave the system I notice we still ain't free
In this club trying to ban me cause my white tee
I mean like high key
I was choosen to fight in a pair of Mikes
Over polite holding a knife
They hold my live in low regards hoping I'm hopeless
But I've been in love for so long like Janet Jackson poems
I know I'm terrible
But I'm focused like a variable
Emitting phernomones so I dont got to bear it alone
Nina Simone biopic made me swear at my home
Gotta call someone so I can tell them on my telefone

They ain't trying to see me shine, shine
Bullet on my time, time
But Fuck it, I'll live forever
They ain't trying to see us shine, shine
Bullet on our time, time
But Fuck it, we'll live forever
Forever in a day
Follow in the rain
You know that we live forever
How long will it take?
To marry the sunset
If it ain't us yet forever
