

What do you possibly think you know about love?  
You know, I'm sick and tired of men using love like it's some kind of disease you just catch  
Love should've brought your ass home tonight  
Didn't you hear me say I was sorry?  
I heard you say you're sorry, you're sorry and you're tired  
You don't love me, you don't love Jack, you only love your damn self

Yo  
He like toxicity  
My recipe good, get that pussy to drip  
Wear that drip in the hood  
Good riddance and good dollars makin' him feel better  
Fuck better, want better  
Makin' me love more or less  
Sex was an ornament  
Something to hang up at Christmas time  
Something that sparkle and so sublime  
Real sinister, white vinegar, clean  
Scrub out the dirt patch where he just hurt me

I don't need your bad bad  
I can do bad all by my lonely, first homie  
Had a whole baby on me, fuck you, nigga  
Had a whole baby on me, fuck you, nigga  
I don't need your bad bad  
I can do bad all by my lonely, first homie  
Had a whole baby on me, fuck you, nigga  
Had a whole baby on me

Yo  
Quiet is kept, kept his ego fed  
Quiet is kept, gave him resources  
And good pussy for love  
I'm like his little secret under the rug  
Like, I could almost be wifey  
But I ain't light skin enough  
Quiet is kept, yo your dick is mid  
Quiet is kept, I don't want your kid  
She can have him  
Send up a prayer for that girl and her savage  
My house luminates  
I done cleared out the past tense

I don't need your bad bad  
I can do bad all by my lonely, first homie  
Had a whole baby on me, fuck you, nigga  
Had a whole baby on me, fuck you, nigga  
I don't need your bad bad  
I can do bad all by my lonely, first homie  
Had a whole baby on me, fuck you, nigga  
Had a whole baby on me

Yo  
The universe says you gon' take what you get  
If you ain't callin' the quits  
The universe said you gon' take what you give

The universe said we gon' take what we get  
If we ain't callin' the quits  
The universe said you gon' take what you give  
The universe said we gon' take what we get, get  
Divided, we don't takin' no shit  
I don't wanna bite that, the money dive back  
Nah, really it was me, see  
I gave my energy to he  
I double back to [?]  
I couldn't pass the Mickey D's  
Really it was me, see  
I tend to like the simple things  
We don't have to work on us, we intimate  
We thick as thieves  
I stole your time, you stole my time  
We'll never get it back  
Happy for the 20/20 vision and the artifact  
Really it was me, see  
Really it was I and I refuse to love the alibi until the time to cut the tie  
I can't really give no fuck about what you did  
I make amends  
I wish you well, go ahead, nigga, raise your kid  
I can't really give no fuck about what you did  
I make amends  
I wish you well, go ahead, nigga, raise your kid  
How I live, I'm gettin' mine  
I study time  
Never again in my new, new life, baby  
How I live, I'm gettin' mine  
I study time  
Never again in my new, new life, I treat me well  
  
Yeah, nigga  
Never again in my new, new life, I treat me well  
Uh, uh  
Never again in my new, new life, I treat me well  
Yeah, nigga  
Never again in my new, new life, uh  
Never again in my new, new life, yo  
Never again in my new, new life, I treat me well
