

Lost Song

NONONO

I'm begging you to answer
But I risk my mind
I'm asking you to feel my years
I'm begging you to answer
But I risk my mind
I'm asking you to share my fears

Why did you have to fall through on the longest night?
Why did you have to fall through on the coldest night?

Hey, down the mountain there's a sparkle and an ancient song
Singing in the treetops still
Hey, down the mountain there's a promise of a long lost song
Singing for the children still
For the children still
For the children still

I'm begging you to answer
Am I wasting time
I'm asking you to feel my years
I'm begging you to answer
Am I wasting time
I'm asking you to share my fears

Why did you have to fall through on the longest night?
Oh, where did you go to on the coldest night?

Hey, down the mountain there's a sparkle and an ancient song
Singing in the treetops still
Hey, down the mountain there's a promise of a long lost song
Singing for the children still
For the children still
For the children still

Hey, down the mountain there's a sparkle and an ancient song
Singing in the treetops still
Hey, down the mountain there's a promise of a long lost song
Singing for the children still
For the children still
For the children still
