

Scared

NONONO

Had my heart on my sleeve
I cut it down, I can't breathe
I lay my cards on the floor
I don't wanna use them anymore

How much can a heart take
And can I get a rest
Singing in the last race now
Don't stop through the dark
How much can a heart take
Can I get it back
Singing in the last race now
Before we get on

I'm so scared, I'm so scared
I'm so scared, I'm so scared
I'm so scared, I'm so scared
I'm so scared, I'm so scared

Had my eyes in the cracks
So very close to paradise
It took me down with your sting
And left me dry with a dream
How much can a heart take
Can I get it back
Singing in the last race now
Don't stop through the dark
How much can a heart take
Can I get it back
Singing in the last race now
Before we get on

I'm so scared, I'm so scared
So scared

How much can a heart take
Can I get it back
Singing in the last race now
Don't stop through the dark
How much can a heart take
Can I get it back
Singing in the last race now
Before we get on

I'm so scared, I'm so scared
I'm so scared, I'm so scared
