

# A Million Watts

Nonpoint

A million watts when the beat drops  
So sick, it'll make your heart stop  
Got the room turning up  
But I don't think it's loud enough  
A million watts when the beat drops  
So sick, it'll make your heart stop  
Got the room turning up  
But I don't think it's loud enough

I'm a badass, go and look it up  
Check after "aftermath" and before "bad luck", ay  
Want me to turn it down? Don't make me turn it up  
And bust it on, tick-tack, we got a party out front, ay  
Keep your sad ass home  
Making up every kind of excuse just to not show up, ay  
I take a champagne, shower, clean up  
In an hour, take a left and meet you on the dance floor

Time to get the walls rattling  
Time to get the windows shattering  
Time to get the neighbors shocked  
(The neighbors shocked)

A million watts when the beat drops  
So sick, it'll make your heart stop  
Got the room turning up  
But I don't think it's loud enough  
A million watts when the beat drops  
So sick, it'll make your heart stop  
Got the room turning up  
But I don't think it's loud enough

It's that click click bang in this bitch  
Cool cast, gold grills, bodies or they snitch  
Puff puff pass for the old-class bitch  
A million watts running through that whole city grid  
Blowing out lights from the power that we bring  
Treat it like a chorus, make the whole crowd sing  
Then bring it all back, not to chill out and relax  
But to teach the whole city how to live in excess, come on

Time to get the walls rattling  
Time to get the windows shattering  
Time to get the neighbors shocked  
(The neighbors shocked)

A million watts when the beat drops  
So sick, it'll make your heart stop  
Got the room turning up  
But I don't think it's loud enough  
A million watts when the beat drops  
So sick, it'll make your heart stop  
Got the room turning up  
But I don't think it's loud enough

No need for sockets when you're so electric  
I'll plug in and light up this place on my own

Time to get the walls rattling  
Time to get the windows shattering  
Got the needle, bend it on the beater  
Check and measure, the pressure will get you  
Time to get the walls rattling  
Time to get the windows shattering  
Time to get the neighbors shocked

A million watts when the beat drops  
So sick, it'll make your heart stop  
Got the room turning up  
But I don't think it's loud enough

A million watts when the beat drops  
So sick, it'll make your heart stop  
Got the room turning up  
But I don't think it's loud enough  
A million watts when the beat drops  
So sick, it'll make your heart stop  
Got the room turning up  
But I don't think it's loud enough

But I don't think it's loud enough  
Time to get the walls rattling  
But I don't think it's loud enough
