

Position One

Nonpoint

Let's put a round in it
Make sure it's done
This conversation can't live another minute
Ooh, ooh, ooh, ooh, ooh, ooh
Let's go back to the beginnin'
Position one
'Cause our positions have got our bodies spinnin'
Ooh, ooh, ooh, ooh, ooh
We're stuck on back and forth again
We lack the talent to pretend there's a problem here
It's clear as day what you really wanna say so

Say it already. Get it outta the way
We're there already. Get it outta the way
Scared already? Outta the way
Endured enough? Outta the way!

I'll never let you break me down inside, inside, inside, inside, inside
I'll never let you break me down inside, inside, inside, inside, inside

Let's go back to the beginning
Position one
'Cause our positions have got our bodies spinnin'
Ooh, ooh, ooh, ooh, ooh
This "take it or leave it" attitude has gotten so rude
Gotten so low, got the keys to the car in hand
Ran outta patience 'bout a year ago

Say it already. Get it outta the way
We're there already. Get it outta the way
Scared already? Outta the way!
Endured enough? Outta the way!

I'll never let you break me down inside, inside, inside, inside, inside
I'll never let you break me down inside, inside, inside, inside, inside

You won't have to relive this
Not even one last time
Never let you break me down inside, inside, inside, inside, inside

I'll never let you break me down inside, inside, inside, inside, inside
I'll never let you break me down inside, inside, inside, inside, inside

You won't have to relive this
Not even one last time
Never let you break me down inside, inside, inside, inside, inside
