

Underdog

Nonpoint

You made me part of your study, then wonder why I'm so bloody
Why I'm so slutty
Why I'm so broken, and doin' all the unspoken
Doin' this for the money, doin' that 'cause it's funny
Bein' here for the token
And I don't like I'm becomin' what I hate and been runnin' from
Ever since I was little, everything was so simple
When I didn't see wrinkles, and everything was so sunny
Made me part of a your study, then wonder why I'm so bloody

I wasn't playin' when I was laughin' and sayin'
That I was done with this shit, done with the playin'
You said I wouldn't be missed, well, I'm feelin' the same
And when I blow you a kiss, know that I won't be stayin'
I wasn't playin' when I was laughin' and sayin'
That I was done with this shit, done with the playin'
You said I wouldn't be missed, well, I'm feelin' the same
And when I blow you a kiss, know that I won't be stayin'

You got the questions
Well, I got the answers
You made me part of your study, then wonder why I'm so bloody

I ain't afraid of the fall, 'cause that ain't nothin' at all
See, I been there, done that, tell them, then run back
Nothin' to lose, fearless, clipped tail, and earless
Scar-studded, a hundred-percent, pure-blooded underdog
(Ooh-ooh-ooh)
So you ain't makin' nobody scared
Even with odds stacked against all of the broadest specs
Widen the field of view better to see when everything moves

You got the questions
Well, I got the answers
You made me part of your study, then wonder why I'm so bloody
Ooh, you got the questions
Well, I got the answers
You made me part of your study, then wonder why I'm so bloody

It's comeback season
Yeah, I don't need no reason
I said, "It's comeback season!
Yeah, I don't need no reason!"
Comeback! Angry 'cause I've done that?
Cryin' as you look back, that's a lot to unpack
Even odds against me, even if they hate me
Even when they stack it all and bet it all against me
It's comeback season
Hu-oh

You got the questions (Why I think there's nothin' to lose?)
Well, I got the answers ('Cause there's somethin' I need to prove, no)
You made me part of your study, then wonder why I'm so bloody (I said, "It's
comeback... ")
