

## This Life

Norah Jones

This life as we know it  
This life as we know it  
This life as we know it is over

This life as we know it  
This life as we know it  
This life as we know it is over

Some may run  
But I won't hide  
Now take my pride with you

If we find  
What we lost  
God might see us through

Hearts frozen  
Arms open  
Hands shaking  
Bonds breaking

This life as we know it  
This life as we know it  
This life as we know it is over
