Virginia Moon

Norah Jones

Dearest constellation, Heaven surroundin' you Stay there, soft and blue. Virginia moon, I'll wait for you tonight Sweetest invitation, Breaking the day in two Feelin' like i do, Virginia moon, I'll wait for you tonight

And now our shades become Shadows in your light In the morning wind we're through And tomorrow rescues you, I will say goodnight

Secret fascination, Whisper a quiet tune Hear me callin' you, Virginia moon, I'll wait for you tonight

And now our shades become Shadows in your light In the morning wind we're through And tomorrow rescues you, I will say goodnight Virginia moon, I'll wait for you tonight

And now our shades become Shadows in your light In the morning wind we're through And tomorrow rescues you, I will say goodnight

I will say goodnight I will say goodnight
