

Falling

Nordic Union

We're socially divided
Through emotionally confided
But we are, we are, we are still beautiful
It's true
Been hanging at the deep end
We've been through hell and back again
But we are, we are, we are still beautiful
Me and you

And everything I drown into your eyes
I see a glimpse of paradise

Tonight's the night we're falling in love again
Yeah we're falling falling
Tonight's the night we'll melt into one again
Love is calling calling
Never let it die
We'll keep the flame alive
Sliding up and down
It's a roller-coaster ride
Hold on
Tonight's the night
We're falling in love again

What they can't see on the outside
Is what count's on the inside
And we both, we know, we're bold
And beautiful it's true
Still I see the sunrise in your eyes
And girl that's when I realize

We fall in love again
We're falling in love again
And I can't get you out of my mind
No, I just can't stay away
And now's the time we realize
