

Those sweet words that came
Through your mouth
Your soft lips under
The crimson sky
And all our dreams took
Away my doubts
Never saw it coming
Now I know it's all a lie

Water flowing
Down the stream
Try to cleanse the shame
And all the guilt
Turned to ashes in my mouth
War is coming everything
I knew it's all a lie

Caroline, Caroline
Everything was just a lie
Caroline, you're living in hypocrisy

Heaven knows where I'm gonna go
These cold winds I'm frozen to the bone
Can not sleep, can not stay awake
Every ray of light
Is getting dark, it's all a lie

Caroline, Caroline
Everything was just a lie
Caroline, you're living in hypocrisy
