

Last Man Alive

Nordic Union

What ever happened to the both of us
What ever lead us down this road
If I could turn back time
Would I have stayed or walked away

What is the meaning and the purpose of it all
What is the reason why we're here
I don't expect an answer
But I really want to know

I will take my broken parts
Gonna brake them down
Start a fire that will kiss the sky (Burning bridges one by one
)
Burn the bridges one by one
Till they fall to the ground
I'm the last (I'm the last)
Till I'm the last man alive

We cross the river to the other side
We cross our hearts and hope to die
The cure for all the hurt
Is hidden somewhere in my pain

I will take my broken parts
Gonna brake them down
Start a fire that will kiss the sky (Burning bridges one by one
)
Burn the bridges one by one
Till they fall to the ground
I'm the last (I'm the last)
